Art Unit 1711

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack Unity of Invention because they are not so linked as to form a single inventive concept under PCT Rule 13.1.

In order for more than one species to be examined, the appropriate additional examination fees must be paid. The species are as follows:

Applicants are required to elect a single block polymer by selecting either Formula IA or IB and furthermore select a single choice for R^1 and R^2 and R^3 and Z as well as R and applicants should also select a single choice for a and b as the single choice for X as well as for X' and a single choice for V and V' and a single choice for W and W' from those definitions set out in instant claim 1.

The claims are deemed to correspond to the species listed above in the following manner:

All claims read on a plurality of species.

The following claim(s) are generic: none

The species listed above do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The only structural feature for the various species have in common is carbon atoms in the backbone but this is not deemed to be a significant structural feature

Art Unit 1711

since the backbone may or may not be saturated and since the various pendant functionalities on the backbone are different and not of a similar nature.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Due to the complexity of this election requirement, no telephone election was attempted.

Any inquiry concerning this communication should be directed to Jeffrey Mullis at telephone number (703) 308-2820.
